Atollo Project

Breaking barriers through education

Hello!

Welcome to the latest Atollo Project newsletter.

As we look ahead to the months ahead, we are pleased to share an important milestone: the Atollo final conference in Pula on 14 May 2026. Thank you for your continued engagement and support of Atollo.

Breaking Barriers through Education Conference

After three years of collaboration and innovation in inclusive digital education, Atollo is reaching a major milestone — and we would love you to be part of it.

On **14 May 2026**, the Atollo consortium will come together in **Pula, Croatia** for our final conference, **Breaking Barriers through Education**, to share the project's journey, showcase what has been developed, and explore how inclusive digital learning can be scaled and sustained across Europe. **Places are limited for in-person attendance**, and online participation is also available — register now to join the conversation.

Pula holds a special place in the Atollo story — not only as the host city for our final conference on 14 May 2026, but as the home of one of our core partners, the **School for Training and Education Pula**, which has been at the heart of piloting Atollo's inclusive digital materials from the very beginning. In our latest blog, we share why bringing the conference to Pula feels like coming home, and we spotlight the school's incredible work supporting learners with major developmental disabilities across the Istria region.

As principal Višnja Popović reflects, "*From that initial spark, a strong flame of cooperation developed*…" — a collaboration that has enriched daily school life and opened up new opportunities for students' progress. Read the blog to learn more about the people and place behind Atollo's impact, and why Pula is the perfect setting to celebrate what shared vision and partnership can achieve
