

Hello!

Thank you for subscribing to the Atollo Project newsletter. Co-funded by the European Union, the Atollo Project is an ambitious initiative focused on supporting learners with disabilities by creating inclusive and accessible digital education tools.

Please read on for the latest news and updates. We'd also love for you to share this newsletter with anyone in your network who may be interested in the Atollo Project.

Smart boards, smarter learning: Pula school invests in an inclusive digital future

As part of our commitment to inclusive education, the Atollo Project recently supported the installation of smart boards in 17 classrooms at the School for Training and Education Pula in Croatia. Discover how this milestone is helping teachers adapt content for diverse learners and creating engaging digital

learning environments. Read more about this inspiring visit and what it means for the future of inclusive education.

Promoting high-quality, inclusive education through technology at Charles-Hallgarten-Schule

Innovation meets inclusion at Charles-Hallgarten-Schule in Frankfurt, where 20 new iPads are transforming daily teaching and learning. This initiative supports high-quality, accessible education for all students—equipping teachers with tools to adapt lessons and empower every learner. Read how technology is helping break down barriers and build confidence in the classroom.
